

01 Setup

1. Community Server: <https://www.mongodb.com/try/download/community>
2. Shell: <https://www.mongodb.com/try/download/shell>

Extract the downloaded Zip and create a system path variable:

```
mongosh: "C:\mongosh-2.5.3-win32-x64\mongosh-2.5.3-win32-x64\bin"
```

3. and also add the path to bin folder to the "Path" under system variables:

Run the shell exe, `mongosh.exe`
